BUILDING CODE CONSTRUCTION APPEALS BOARD

Authorized by the County Commission on March 12, 1973 under the name "Mobile County Board of Adjustment", with five (5) members, which made the Board compliant with the Standard Building Code in effect at that time.

The County presently operates under the 2006 International Building Code that requires the appointment of five (5) members with two alternates to comprise the Board. This explains the disparity pertaining to the number of members on the Board. Members are to be such as design professionals, contractors or building industry representatives. It is also referred to as the Construction Board of Adjustment and Appeals.

This Board has the power to hear appeals of decisions and interpretations of the building official and consider variances of the technical codes.
