AGENDA #7

APPROVE FEES/MOBILE
COUNTY BOARD OF HEALTH

The following is a synopsis of the comments made:

Commissioner Carl asked representatives from the Mobile County Board of Health to come down to the podium to tell the Commission more about these fees.

Ms. Stephanie Woods Crawford, Mobile County Health Department, Inspection Services Division and Ms. Kelly Warren, Director of Program Services of the Mobile County Board of Health stepped forward.

Commissioner Hudson asked if they would explain a little bit about what the fees are for.

Ms. Crawford said Public Health Training for Lodging Workers and the associated Fees would be the same as food handler fees. She explained it is for permit cards for those working in this industry in order for the Board of Health to be able to better train them and be able to protect the community from issues that currently exist, such as finding bed bugs in hotels. She said it is so they are able to educate them on how to properly clean, on things they need to protect themselves and the community from.

Commissioner Hudson asked if it was sanitation training.

Ms. Crawford said yes.

Commissioner Carl asked if this was annual.

Ms. Crawford said yes, it would be annual.

Commissioner Ludgood asked if the workers pay the fees themselves or if their employers do.

Ms. Crawford said the workers or the employer can pay the fee.

Commissioner Ludgood asked if it was going to be mandatory now for people who are doing housekeeping.

Ms. Crawford said yes and asked if the Commission would like information regarding the other fee.

Commissioner Ludgood said yes.

Ms. Crawford said it is for the Cottage Law Application Processing Fee, which is needed because they have to keep information and hold that information and

October 13, 2014

inspect it on a yearly basis, for the Cottage Industry. She said these are individuals who do not have to hold a permit with the Board, but they are able to sell their baked goods themselves from their own homes or in the community. She said there are no types of regulations except the Health Department has to review the process, make sure they have the proper training they need in order for them to be able to cook in a safe environment. She said this is something the State has issues with and it is something they have to do paperwork for and hold onto and if they do see individuals out in the community, they have to stop and make sure they have the proper application and they are in the database system.

Commissioner Carl asked if this was for food only.

Ms. Crawford said yes, for the Cottage Law.

Commissioner Carl asked if it was for any other type of business that is in a home.

Ms. Crawford said it was not, but was only for baked goods, jellies and jams, which is in accordance with the Cottage Food Law from the State.

Commissioner Ludgood asked if this affected the Freeze Cup Lady.

Ms. Crawford said no, it is for the cupcake lady, the bread lady, baked goods.

Commissioner Ludgood replied okay.

Commissioner Carl asked if it would affect the churches and their baked goods.

Ms. Crawford said no, it would not have anything to do with them. What is on church ground has nothing to do with what they regulate.

Commissioner Hudson asked if it was just regular businesses.

Ms. Crawford said yes. These are the \$20,000 and under that it is regulated for; those individuals who do not have to have a business inside where they have to use a permitted kitchen. She said this is also because the Health Department is not permitted to go into a personal home and inspect; the laws do not allow them to do that.

Commissioner Carl asked what the Board of Health was going to do for \$60 for the person that is cooking in the house.

October 13, 2014

Ms. Crawford said they were making sure they are viewing their labels, they are properly certified, and the Board was holding onto their files and keeping them on a list so they would have them in order to do food borne illness complaints, because if those complaints are reported to the Board, they have to go out and track them down. She said by having this gives them a start for them to be able to do the application process and for them to be able to track those individuals down in case there was an outbreak of a food borne illness.

Commissioner Carl said this is where he has problems with stuff like this. He knows \$60 is one permit, but this small business has probably got seven or eight permits before they open up, from various entities, whether from the City, County or Health Department. He said these businesses keep having permits piled upon them, and that is where he has an issue with these.

Commissioner Hudson said this is set up by State regulations.

Ms. Crawford said it is State regulated, yes, it is required.

Commissioner Carl said it is also set up for roads to be kept in drivable conditions, but there is not a charge for each person for paving in front of their house.

Ms. Warren said just as Stephanie stated, with this being a State Law, with the number of Cottage Industry bakers that have increased over the past few years, they have to ensure they are preparing food in a safe and sanitary environment and they understand the potential for food borne illness in their preparation techniques and it is those individuals, as she said, that are generating \$20,000 or less per year on their baked good income. She said they know, there are numbers of folks preparing casseroles, baked goods, jams and jellies and distributing them to local businesses and other venues where they can sell their goods; and so this is just to ensure they understand the responsibility they have to ensure the safety of the product they are selling; and their duty to uphold sanitation practices and to ensure individuals who are a risk for potential food borne illnesses understand that process.

The Commission thanked Ms. Crawford and Ms. Warren.
