**Elizabeth Chiepalich, 4281 Blue Road, Theodore, AL 36682:** Good morning. Elizabeth Chiepalich, 4281 Blue Road, Theodore. I wanted to talk with the Commissioners about the proposed boat launch at Fowl River. I have owned property on Fowl River for over twenty-two (22) years. Our families have spent the summers there, and my husband and I are currently building our retirement home on Fowl River. I have some concerns about the boat launch. First of all, the safety to the public. I have some handouts I would like to give the Commissioners, some diagrams that will show you some of the areas of concern with that boat launch. So first of all, in terms of the danger to the public, there is a photograph of the bridge that's on Fowl River Road. I cross this bridge several times a week and have done so for over a decade. That bridge is maybe twenty (20) yards from Memories. Memories is the fish camp that the County is proposing purchasing. It's currently just a gravel shell boat launch that accommodates really only small boats. That bridge has a curve that comes up to it. And it's almost a hidden bridge. And on both sides of the bridge, the County has hazard, caution signs with a solar panel and blinking lights, simply because people come through there, they don't know the bridge is there, and the bridge is super narrow. There would be no way that a bicyclist and two (2) cars could pass on that bridge. So that is so close to where the driveway of where the fish camp is, that there are often, as I have seen, accidents there. I don't know, but I tried to do the research, but I would not be surprised if there had been fatalities there. So that's a big issue. The second issue to safety is boating. If you will look at the diagrams I gave you, this from the Google map with the red circle will show you how

April 8, 2019

narrow the area of the river is where the proposed boat launch is. It is extremely narrow. I would say no more than twenty five (25) feet. Now when I talked to Representative Carl's secretary, she confirmed for me that this boat launch will accommodate not only kayaks and canoes, but also motorized boats. So if you'll look to the next picture I have, it's a little boy. Also these pictures were printed off of the Memories Fish Camp Facebook page. This is a picture looking from the boat launch across the creek. You can see how narrow it is. The river winds there. And there are no bulkheads. I have been in it many times when a motorboat coming through at no wake speed, and it's posted no wake. But just because it's posted no wake, if a boat is idling, it still kicks up a wake. And I've seen kayaks and canoes almost turned over. I have seen further down the road, kayaks and canoes flipped over many a times. Again, this picture will demonstrate to you how narrow the bridge is. It was also printed off of Memories' Facebook page. So when you get further out into Fowl River, there are a lot of residences on that river. And a lot of that property is bulkheaded, meaning what most people call a sea wall. Let me tell you, on Saturday and Sunday from 10:00 a.m. to dark, Fowl River, I can compare it to Airport Boulevard at 5:00 p.m. You have water skiers, kayakers, jet skis, fishermen, and they're all zooming by and knocking over kayaks. But the big issue for me is these areas are bulkheaded. And there is no way for the wake to smooth out, and it simply bounces off of these bulkheads. The waves are unbelievable. And it is extremely dangerous. Yes. Just to summarize, about ten (10) years ago, on a Saturday afternoon, a little boy was run over in the area. His spinal cord was severed and he's in a wheelchair today. The amount of boat traffic on Fowl River, we just can't safely accommodate any more motorized boats. I do not have a problem with kayaks and canoes, but to put motorized boats into that area is not a wise decision. And I thank you for your time.

**Commission President Hudson:** Thank you, Ms. Chiepalich.

**Commissioner Carl:** We're going to discuss this a little later. I have got some questions also.

**Elizabeth Chiepalich:** Thank you.

---

**Chip Chiepalich, 4281 Blue Road, Theodore, Alabama 36682:** Chip Chiepalich here, and I have been going to Fowl River my whole life. As my wife said, we are currently building a house down there. And I question the need to spend, my understanding, is going to be close to two million dollars (\$2,000,000.00) or one point eight million dollars (\$1,800,000.00). I don't know that it's going to

April 8, 2019

be used that much. Because I read in the paper that somebody said people won't trailer their boats to Dauphin Island, they could put them in there. But there's already a boat launch at the mouth of Fowl River, which is right by the Bay. It's five dollars (\$5.00), and people will pay that. It will be more in gas money to go from Memories to the Bay than it'll cost to launch at the mouth there. I don't mean to undercut what my wife said, but I don't think the ramp is going to be used that much. I think the County has better use for one point eight million dollars (\$1,800,000.00). Thank you very much.

**Commissioner Carl:** I think the news got two (2) stories put together in that article and I never try to correct the press. That's the worst thing to do. But what I was trying to emphasize is that I have spent the last seven (7) years trying to make public access to the Gulf and I started talking about the different places that we have looked. Because we want to pull pressure off of the Island, and that got tied in with this. When it was brought to us, it was a very light motor, like there is right now, a small outboard motor. But part of the Blue Wave, we were trying to encourage kayakers and small boats there, not thirty (30) foot outriggers. Because we know there is no way it can go through there. But this is going to come up and we're going to talk about it. And I appreciate your input. I have gotten emails from two (2) or three (3). And the strangest thing is the environmental folks down there have really encouraged us to do this. So I'm a little confused. I have got a phone call in to them this morning and I want to talk to them on why they feel like it's so important.

**Chip Chiepalich:** Let me ask you, Commissioner, is there going to be any limit on the size of the boats or the horsepower that can launch there?

**Commissioner Carl:** We truly haven't gotten there yet. Again, we're going to have this conversation when number thirteen (13) comes up. And I'm going to try to get some answers publicly and I would like to do that. We can't have somebody standing down there making sure that happens. But I understand the traffic on Fowl River. I have family on Fowl River and they've grown up there the last sixty (60) years, seventy (70) years. Waterskiing on Fowl River is not what it used to be, I understand that. But our focus was primarily on canoes, kayaks, and some very light motor traffic. Because I have been to Memories numerous times when they had their yearly events and the kids catching the fish. That's important stuff to me. So let's take the process a little further. Let's figure out exactly what we're going to do before we get there. Because we need all the input we can get from people just like yourself. Hey, I appreciate it. I really do.

April 8, 2019

**Chip Chiepalich:** But if I could, have the Commissioners heard from anyone that lives on Fowl River that is in favor of this?

**Commissioner Carl:** Yes. There have been several. That's what I was saying, there has been several environmentalist, which is headed by Sam St. John, and I got a call in to him this morning to find out why he feels like it would be such an important project. I want to know, because he has called numerous times checking in to see how this project is moving along. Because it has been in the process for a year maybe, probably a little less than a year. So it's not something that has just come up. And until we announced it, that was the first negative thing that I had gotten. Which I understand and no one really knew what was going on, but we haven't been private about it, by no means. We have been pretty public talking to folks about it.

**Chip Chiepalich:** I'm sorry, that was Sam St. John?

**Commissioner Carl:** Yes. And I want to find out from the environmental side why they feel like this is an important venture. Maybe in their mind, it's all canoe and kayaking, and we're missing that. Because we did talk about putting a canoe/kayak launch there, if you've seen one (1) at Five Rivers. They've got a nice one there. I'd love to do something like that. But let us push it on a little further and I think it will either get you some answers that you're looking for or the outcome may be something that you can tolerate or even like.

**Chip Chiepalich:** And so, I would like to point out it's a no wake zone from where Memories is for about a half a mile down the river. I don't know if you have been to the camp.

**Commissioner Carl:** Quite honestly, I have been to the camp. I have not been on the water there. If I got an email inviting me to come down there, I'd love to do it.

**Chip Chiepalich:** Well I'd be glad to take you myself too.

**Commissioner Carl:** I'll take you up on that.

**Chip Chiepalich:** Thank you very much.

**Commission President Hudson:** Thank you, Mr. Chiepalich.

**Kathy Eddy, Public Affairs Director:** Thank you. Mr. Barclift has let me know that Mrs. Goudreau no longer wishes to address you this morning. But we have Eddie Irby, Jr. representing the 92nd Division Buffalo Soldiers who would like to present an invitation to the Commission.

**Commission President Hudson:** Good morning, Mr. Irby.

**Eddie Irby, Jr., President and Founder, 92nd Division Buffalo Soldiers:** Good morning. My name is Eddie Irby, 1116 Richard Road, Mobile, Alabama 36616. I'll be very brief. I'll pass this out, a copy of it. But I would like to personally invite you to the Historic Oaklawn Memorial Cemetery on the seventeenth (17th) of this month. That cemetery, we were sent into it one (1) year ago to find a half dozen Buffalo Soldiers who they thought were buried in there. As of this morning, the total number of Soldiers, Sailors, Marines, Airmen, Coast Guardsmen, Merchant Marines in there is eight hundred and twenty three (823). When we found out half way there in August, we sent a letter to the Governor and the Alabama Historic Commission asking them to get the Attorney General to investigate why that place was overgrown and all those soldiers were basically thrown away. One week later, they sent a letter back and gave us a certification that we are on the Historical List. Now you have a copy of the marker there. The marker was supposed to be sent on the twenty seventh (27th) of last month. However, they sent it three (3) weeks ahead of time. And we already have it on the thirteenth (13th) of this month, the post will be done and then the marker will be covered until the seventeenth (17th). Fifteen (15) minutes before I pulled into the parking lot out here, we just got a call from Ms. Hannah Garmon. She is the head of the Alabama Historic Commission. She is going to come down here on the sixteenth (16th) because at the Saraland Hotel out there in Saraland, we have Buffalo Soldiers, Tuskegee Airmen, men from the Red Ball Express, the 333rd Artillery Group, and the Triple Nickel, all black parachute group. These are original men from World War II. They're going to be there. We've contacted Saraland Police, Satsuma Police, Prichard Police, Chickasaw Police, and Mobile P.D., as well as, the Alabama State Troopers to lead that caravan to the cemetery. Now this program is only designed to last thirty eight (38) minutes because when we sent the letter to the Alabama Historic Commission, we found out there are eight hundred (800) cemeteries in the State of Alabama, however, there were only thirty seven (37) on the Historical Register in Alabama. We became number thirty eight (38), and the reason why we are having this program on the seventeenth (17th) of April is because Captain Leon Roberts, born and raised in Prichard, is buried in that cemetery, thirty five (35) feet behind the American flag there. And on that day in 1944, the 99th Fighter Squadron had just set history by coming in on their four hundredth (400th) sortie and they had completed two thousand five hundred and ninety two (2,592) runs. In his group was the

April 8, 2019

only man in World War II with a P-51 Airplane to shoot down a German jet. So I am personally offering for you to come, and Ms. Ludgood, if you would, Ms. Garmon is going to be here a day ahead of time, we would invite you and all three (3) of you to come out to the hotel and ride back. Pastor McQueen has provided a bus for all of our soldiers to get in. And as you can see, we have a basic escort as well as the Patriot Guard Riders. That's fifty (50) of them on motorcycles. Thank you.

**Commissioner Carl:** Thank you very much.

**Commission President Hudson:** Thank you, Mr. Irby. We appreciate you being here today to share this information. And the marker is just beautiful. It's absolutely beautiful.

AGENDA #13

AUTHORIZE PURCHASE OF REAL  
PROPERTY/4901 FOWL RIVER ROAD,  
THEODORE, ALABAMA/GOMESA

**Commissioner Carl:** Could we have some conversation on that? Tina Sanchez is actually heading this project up. Tina, could you explain what we're looking to actually do there?

**Tina Sanchez, Environmental Services:** Yes, sir. So the agenda item before you is to consider authorizing a purchase agreement.

**Commissioner Carl:** Consider?

**Tina Sanchez, Environmental Services:** Consider a purchase agreement. Yes. This, as in the other acquisition that we talked about and you have authorized already at Escatawpa, is to acquire these parcels to provide the public access to the shorelines and the waterways in Mobile County. There is a sister project to that which is once we have acquired the public access points and in existing parks, like Chickasabogue, we'll undertake a master planning process. And soon you'll see an agenda item to award a contract to a firm. We are soliciting for proposals from firms to perform that master planning process, the needs assessment, community outreach, and the design of what improvements might need to be made. So we'll be moving forward after acquiring the parcel with a master plan and we'll engage the citizens in survey and some outreach meetings to determine what they'd like to see in their communities. I would say that what will be done with these locations and what improvements is yet to be determined.

**Commissioner Carl:** Okay. Do we have in these costs, a canoe launch and bathrooms?

**Tina Sanchez, Environmental Services:** Yes, sir.

**Commissioner Carl:** Okay. And the ramps going in and out of the water, they're going to be concrete?

**Tina Sanchez, Environmental Services:** Well, that's to be determined by those best practices that are identified through the consultant-led planning process.

**Commissioner Carl:** Okay. Have we talked anything about power boats, the issues of sizes?

April 8, 2019

**Tina Sanchez, Environmental Services:** Not yet. One thing we have to keep in mind is the existing uses; where there are small boats and paddling. And we'd be looking at what the best practices would be at that location, whether the physical conditions around it would allow for larger boats. And I'm not sure it would.

**Commissioner Carl:** But how would we enforce that?

**Tina Sanchez, Environmental Services:** By the improvements that we make, if we leave a sandy shoreline where kayakers or paddlers would prefer, I understand, then that would not provide the facilities necessary for a large boat to put in there. So I think we could control that, perhaps by the type of improvements that are made.

**Commissioner Carl:** And I understand their concerns. I want to address them as we can. But in the way I feel like this is we have got to vote for it to see what's in it. In other words, we have got to purchase it and then decide what to do with it?

**Tina Sanchez, Environmental Services:** Yes, sir.

**Commissioner Carl:** And that bothers me a little bit.

**Tina Sanchez, Environmental Services:** I understand.

**Commissioner Carl:** So at this point, I would suggest that we at least put it off until our next voting cycle which would be two (2) weeks and give us more of a chance to look at it to figure out what we're going to do. From some pro and con email feedbacks and see what we can do.

**Commissioner Ludgood:** Commissioner, I guess I just don't know that anything will be different in two (2) weeks. We won't have a master plan back. And because of the process that we are envisioning provides for public input during that process while we're doing it, we're going to hear from probably the Chiepaliches and the other people in that area who have concerns about what ought to happen there. But we can't do anything until we own it. And one of the problems that we have had in trying to do the Blue Wave, the kayakers we are trying to identify are more access points like you were talking about. So if we don't own this at the time we start our masterplan, then we really can't plan what we're going to do with it because it's not ours. We can put it off, but I don't see anything that is going to be different, that we won't have any more information than we have right now because we can't make any commitments around what we are going to do with this until the masterplan input comes back.

**Commissioner Carl:** Well, I have heard from the folks that don't want it. I have not heard from the folks that do want it. And those are the ones that I truly want to

April 8, 2019

reach out to. If the environmental groups that are led by Sam St. John in that area are actually for it, I would like to hear the reason why. That's what I want in the two (2) week period. I know we can't do any planning, but we can at least talk about the parameters that we can hope to do some planning around. We can stop large boats from being launched there and how do we do it? You just told us by not pouring concrete. But the parking and the bathrooms are going to be an issue. It is now, the parking is an issue now? We may or may not have access to the parking lot across the street or the parking facilities, I should say. I still ask for two (2) more weeks. We may not get any further, but I think it's worth at least letting me get some questions answered before we purchase another piece of property in the County's name.

**Commission President Hudson:** Well, I'm agreeable to that. I would say that as we move forward with master planning and needs assessment, if you find that the community is opposed to certain types of use, as far as boats that are launched, those can be limitations that can be put into the master plan, so those would be taken off the table.

**Tina Sanchez, Environmental Services:** Yes, ma'am.

**Commission President Hudson:** As you move forward.

**Commissioner Carl:** Good. Thank you.

**Tina Sanchez, Environmental Services:** You're welcome.

**Commission President Hudson:** Thank you, Tina.

Upon the request of Commissioner Carl, this item was held over.

AGENDA #15

APPROVE WORK ORDER #14/MASTER  
SERVICES AGREEMENT/INFORMATION  
TRANSPORT SOLUTIONS, INC./  
VIDEO ARRAIGNMENT SYSTEMS

Commissioner Carl moved, seconded by Commissioner Ludgood, that the Board approve Work Order #14, relating to Master Services Agreement with Information Transport Solutions, Inc. in the total amount of \$66,802.41, from the General Fund Account, for Video Arraignment Systems, for the Metro Jail, courtrooms, and Judges, and authorize the President of the Commission to execute the agreement on behalf of Mobile County.

Motion carried unanimously.

**Commissioner Carl:** Can I point something out here? This will bring us into the twenty-first (21st) century. We will be able to do arraignments without transporting these prisoners to and from the building. We're spending a lot of time, money, and resources just transporting. Now with this, we'll do it from the Judges' Chambers via directly to the prison. So, we are joining the twenty-first (21st) century here. I appreciate your work on that.

**Commission President Hudson:** Thank you.
