MOBILE COUNTY COMMISSION

The Mobile County Commission met in regular session in the Government Plaza Auditorium, in the City of Mobile, Alabama, on Monday, August 26, 2019 at 10:00 A. M. The following members of the Commission were present: Jerry L. Carl, President, Connie Hudson and Merceria Ludgood, Members. Also present were Glenn L. Hodge, County Administrator/Clerk of the Commission, Jay Ross, County Attorney, and W. Bryan Kegley II, County Engineer. President Carl chaired the meeting.

Commission President Jerry L. Carl: After we hear the prayer, let's take a moment of silence to remember Chamin Fernando. He passed away last week. He was an Engineer I and it has really touched us all. I can still see him sitting in the atrium smiling every time I saw him. Let's remember him and of course, let's remember his family. I think his wife's name is Lisa. After that, we will do the Pledge of Allegiance.

INVOCATION

The invocation was given by Pastor Julius Haston, Pastor of Walls of Salvation International Church, 1711 First Avenue, Mobile, Alabama 36610.

Brendan Kateon, RCT of Alabama, LLC, 2515 Leroy Stevens Road, Mobile, AL 36695: Good morning. I am Brendan Kateon. I am a representative for RCT Alabama, LLC. We are a joint venture between OMNI Industrial Services, Renewable Carbon Technologies, and U.S. Amines. The proposed facility is to build a tire recycling facility at the site of U.S. Amines, which is just south of Barry Steam Plant. Essentially, it is a twenty-six million seven hundred thousand dollar (\$26,700,000.00) project with a bond issuance of around thirty-five million dollars (\$35,000,000.00). It will process end-of-life tires, approximately two million five hundred thousand (2,500,000) tires per year, turning into thirteen thousand (13,000) tons of carbon black, ten thousand (10,000) tons of steel, and about five million (5,000,000) gallons of oil. All to be repurposed into their appropriate industries.

August 26, 2019

The carbon black is ultimately the driver. It will be used in rubber products and plastic products. The facility will take about fifty-five (55) to sixty (60) jobs long-term. That's all I have.

Commission President Jerry L. Carl: I'm very familiar with your project. We have had three (3) similar projects that we have met on and we are in desperate need of it. Most people do not realize how hard it is to get rid of a used tire. You can't just burn them. You can't just bury them. You have got to go through the process. So the process that you're talking about will literally take the steel out of the tire itself, chip the tire up, take the oils out of it, and turns it into a carbon dust. Which virtually everything we use around here has some carbon in it of some type, and then you'll reuse the carbon. It's a wonderful reuse of our resources. We're glad to get you in Mobile, Alabama.

Brendan Kateon: Yes, sir.

Commissioner Connie Hudson: What area will the tires be collected from? Just from the region?

Brendan Kateon: It is within the region, about a two hundred fifty (250) mile radius. Mobile, Alabama is currently an avenue to a landfilling just north of Mobile, Alabama. There is a current collector that will be utilized as a primary collector and in addition to our own collection. Our process, to distinguish it from the traditional version of carbon black, is very nonemissive. It is essentially a clean way of reducing and recovering a carbon black product that is virtually identical to the product that goes into tires and rubber products.

Commission President Carl: And a lot of those tires are coming in by rail?

Brendan Kateon: Actually, trucking.

Commission President Carl: Okay.

Brendan Kateon: The majority are trucked in. Actually, through conversations with the current collector, they get calls as far as Miami, Florida that want to send tires through Mobile, Alabama.

Commission President Carl: It is such a problem in Dallas/Fort Worth, Texas. For example, as a pilot, we use a pile of tires as a point of reference flying into Dallas/Fort Worth, Texas. Even commercial airlines use it. They don't know what to do with them. This is a good thing.

Brendan Kateon: Yes, sir.

August 26, 2019

Commission President Carl: We appreciate that.

Commissioner Hudson: My understanding is that we are basically just granting permission for them to issue bonds?

Jay Ross, County Attorney: That is correct, Commissioner Hudson. This is a request by the entity through the Industrial Development Authority of Mobile County, what is called conduit financing. It does not impact our credit rating at all. We have done this with other entities over the past. This is not unusual. The federal law requires for a Tax Equity and Fiscal Responsibility Act (TEFRA) hearing, which is what the public hearing will be held on item #5. Anybody at that time, of course, can speak for or against it if they wish. Item #6 is if it is all good, the Commission can officially adopt a resolution authorizing the Industrial Development Authority of Mobile County one (1) of these bonds. We did something similar through our Solid Waste Authority less than a year ago for the landfill at the Acordis Cellulosic Fibers, Inc. site in Axis, Alabama. This is nothing unusual for this body to consider these matters.

Commissioner Hudson: Thank you.

Commission President Carl: Thank you, sir.

Stephanie L. Streeter, Director of Mobile County Department of Human Resources, 3103 Airport Boulevard, Mobile, AL 36606: Good morning. I am very pleased to announce that currently Mobile County Department of Human Resources has four (4) locations in Mobile County. We will be consolidating to two (2) locations in September 2019. We have one (1) location on 2970 Cottage Hill Road, Suite 150, Mobile, Alabama 36606 and 3103 Airport Boulevard, Mobile, Alabama 36606. Those two (2) locations will provide all of the social services that the Department of Human Resources provides to Mobile County. The 2970 Cottage Hill Road location will provide food assistance, temporary assistance for needy families, and the jobs program. As well as with the 3103 Airport Boulevard location, will have child welfare, adult protective services, and child support. Both sites are on the bus line for services.

Commission President Jerry L. Carl: Well thank you.

Commissioner Connie Hudson: Thank you.

Commissioner Merceria Ludgood: So you are abandoning our Broad Street property, is that what you're telling us?

August 26, 2019

Stephanie L. Streeter: That is correct. But we appreciate the assistance of the County Commission with that location.

Commission President Carl: Thank you.

CIP-2017-001/ADDITION TO METRO JAIL

Commission President Jerry L. Carl: Can I get someone to explain what we were bidding here? I looked and saw the bid prices. We basically had one (1) bidder which was over our budget.

Tyler Martin, Facilities Engineering Manager: Yes, sir. This is the jail addition project. We're going to add an upgraded and improved sally port. It will fit buses and multiple police cruisers. It will also secure that area so someone from the public cannot walk up to the waiting cars. The intention is also to secure the entire facility with fencing. We're working on that with the City of Mobile. It also reconfigures some of the existing areas to add a new triage area and upgraded holding cells.

Commission President Carl: All desperately needed.

Tyler Martin, Facilities Engineering Manager: Yes, sir.

Commission President Carl: Real quickly, I saw the bid come in at twenty-four million dollars (\$24,000,000.00). What was our budget on that?

Tyler Martin, Facilities Engineering Manager: We have a fifteen million dollar (\$15,000,000.00) total budget. We're going to work to streamline some of the bid items in the project. We're not intending to eliminate anything that was in the base bid. This is all in response to a report of needed items that we had done some years back.

August 26, 2019

So we're not intending to eliminate anything. I am going to try to streamline this and try to cultivate some additional bidders.

Commission President Carl: Okay. Thank you.

Tyler Martin, Facilities Engineering Manager: Yes, ma'am. We had five hundred five thousand dollars (\$505,000.00) allocated towards the building. We're going to move some from Bay Haas. AGENDA #43

APPROVE AGREEMENT/COASTAL
WEATHER RESEARCH CENTER/
FORECAST AND WARNING SERVICE

Commissioner Connie Hudson: Can we get a little more information about this?

Eddie Kerr, Environmental Services Director: Yes, ma'am. We had a meeting with the Coastal Weather Research Center a couple of weeks ago. They can give a detailed daily forecast of storms that are going to hit that are a little more specific than what the general forecast of the weather service is, as well as a more specific forecast of hurricane tracks that may change. They can get the information to us quicker than what can be published out because they have to look at how many people are getting this information. If we're paying for that specifically, we can get that a little quicker.

Commissioner Hudson: So this is not related to the National Weather Service?

Eddie Kerr, Environmental Services Director: No.

August 26, 2019

Commissioner Hudson: This is a separate entity and we would be entering into an agreement so that we could get more detailed information than what we have now for planning purposes. Is that an accurate statement?

Eddie Kerr, Environmental Services Director: Yes. It's quicker information and more accurate for that location. So if we are out paving for a project, we can call before we get a big load of asphalt. If it looks like there may be rain, they can narrow it down and give us a little more specific, not to mention we can get better after-the-fact rainfall data from this entity as well for other reasons.

Commissioner Hudson: Okay. Thank you.

Commissioner Merceria Ludgood: Should the name be the University of South Alabama Coastal Weather Research Center? I just noticed this is from University of South Alabama.

Eddie Kerr, Environmental Services Director: They are, but the contract actually states Coastal Weather Research Center. They are affiliated with the University of South Alabama, but the contract specifically states Coastal Weather Research Center.

Commissioner Ludgood: It just made me feel a little better to see that they were associated with the University of South Alabama.

Eddie Kerr, Environmental Services Director: Yes, ma'am.

Commissioner Ludgood moved, seconded by Commissioner Hudson, that the Board approve the agreement with Coastal Weather Research Center, for their Forecast and Warning Service for one (1) year. The cost for this service is \$3,600.00, and authorize the President of the Commission to execute the agreement on behalf of Mobile County.

Motion carried unanimously.

AGENDA #44

APPROVE MOBILE COUNTY FY 2020
COUNTY TRANSPORTATION PLAN

Commissioner Connie Hudson: Bryan, would you like to speak to that and explain what we're doing?

August 26, 2019

Bryan Kegley II, County Engineer: Commissioner, I would be happy to. This is a very nice shot in the arm for all of the counties in the State of Alabama. We're looking at about two million five hundred thousand dollars (\$2,500,000.00) in the Fiscal Year of 2020 of additional gas tax money coming in through the County of Mobile. In the next year, it looks like it will rise to about three million five hundred thousand dollars (\$3,500,000.00). Then in Fiscal Year 2022, we are looking at four million one hundred thousand dollars (\$4,100,000.00) to four million two hundred thousand dollars (\$4,200,000.00) with the full implementation of the ten cents (10¢) per gallon gas tax. This is all in accord with Act Number 2019-2 that was passed back in March 2019. It's just a tremendous shot in the arm for the County of Mobile. By the Act, we must approve a plan to spend this money. We have recommended to the Commission that we would like to utilize this money mainly for resurfacing type work. That would allow us to then take some of the resurfacing work that we have been proposing in our Pay-As-You-Go Programs and allocate that towards more Grade, Drain, Base, and Pave to pave some of our dirt roads. A tremendous shot in the arm for the County of Mobile.

Commissioner Hudson: Thank you.

Commission President Jerry L. Carl: Do you remember the total dollar amount that the cities in the County will actually receive? You can get it to me later. I just thought you might have that number.

Bryan Kegley II, County Engineer: We can get it. We have that in our office.

Commission President Carl: Thank you.

Bryan Kegley II, County Engineer: I do not have it on top of my head, Commissioner. Sorry.

Commissioner Hudson moved, seconded by Commissioner Ludgood, that the Board approve the Mobile County FY 2020 County Transportation Plan in accord with the requirements of Act 2019-2 Rebuild Alabama Act.

AGENDA #48

APPROVE MOBILE COUNTY COMMISSION TO
APPLY/FY 2020 FUNDING/ATRIP-2 PROGRAM

Commissioner Connie Hudson: Bryan, would you like to explain that one a little bit too?

Bryan Kegley II, County Engineer: Yes, Commissioner. There is an opportunity with Act 2019-2 that was passed back in March 2019 that allocates thirty million dollars (\$30,000,000.00) to fifty million dollars (\$50,000,000.00) per year of Alabama Transportation Rehabilitation and Improvement Program-II (ATRIP-2) Funds that became available for counties to apply for as a competitive application process. In our discussions with the local southwest region, they have recommended that we go together with them with application to build a roundabout at the intersection of Irvington-Bayou La Batre Highway with Highway 188. This is a project that the Department of Transportation has been wanting for several years. They have approached us several times if we would go in with a third of the estimated costs. They have actually been wanting us to bear fifty percent (50%) of it. With this money becoming available to us, we're going to have a meeting with them this afternoon to try to wrap up the application to submit for approximately one million five hundred thousand dollars (\$1,500,000.00) to bring into Mobile County.

Commissioner Hudson: One million five hundred thousand dollars (\$1,500,000.00) you said?

Bryan Kegley II, County Engineer: One million five hundred thousand dollars (\$1,500,000.00) and then we would have a match of approximately seven hundred fifty thousand dollars (\$750,000.00). It would be our intent to put that in the Countywide portion of the 2020 Pay-As-You-Go Program if our application is approved.

Commissioner Merceria Ludgood: So tell me again, Highway 188?

Bryan Kegley II, County Engineer: The intersection of Irvington-Bayou La Batre Highway with Highway 188.

Commission President Jerry L. Carl: Right where McDonalds is at. McDonalds and Odd Fellow Cemetery.

Bryan Kegley II, County Engineer: There has been a lot of accident history there, Commissioner. The State of Alabama has been asking us to go in with them on a project there for the last two (2) or three (3) years. This is a perfect opportunity for us to go grab some of this money if we're approved.

August 26, 2019

Commissioner Ludgood: Okay.

Commission President Carl: Well needed.

Commissioner Hudson moved, seconded by Commissioner Ludgood, that the Board approve Mobile County Commission to apply for FY 2020 funding through the ATRIP-2 Program. Also, authorize the Commission President to sign all necessary documents pertaining to the application.

Motion carried unanimously.

COMMISSION ANNOUNCEMENTS
AND/OR COMMENTS

There were no announcements and/or comments.

MOTION CALLING FOR
EXECUTIVE SESSION

Jay Ross, County Attorney: Commissioners, we do have an Executive Session, mindful of timing. I would ask the Commission to consider going into Executive Session after you do the Indigent Care Board Meeting. I would certify the reasons to go into Executive Session are two-fold. One is to talk about the buying and/or selling of real property. The second relates to security concerns and imminent litigation depending on how the Commission acts or doesn't act on a particular matter. I would certify that those are appropriate reasons to go into Executive Session under the Alabama Open Meetings Act and further so certify the same as a lawyer licensed to practice law in the State of Alabama. I do not think the Commission needs to vote on today, but I would estimate no more than thirty (30) minutes. There would need to be a roll call vote to

August 26, 2019

adjourn into that after your Indigent Care Board Meeting and you can adjourn from the Executive Session.

Commissioner Hudson made a motion that the Commission convene in an executive session for the purpose of discussing matters related to economic development and pending litigation, which motion was seconded by Commissioner Ludgood, and on roll call vote the following vote was registered:

YEAS	NAYS
Merceria Ludgood	None
Connie Hudson	
Jerry L. Carl	

The Chairman thereupon announced that the motion had been carried by majority vote of the Commission present.

Commission President Jerry L. Carl: Before we close this out, I want to recognize a good friend of ours, Charlie McNichol, is here. He is the Director of Mobile County Communications District. Stand up and let everybody see you. He is always helping us out in situations and we certainly appreciate the roll he is playing in this County.
