MOBILE COUNTY ENGINEERING DEPARTMENT
PRELIMINARY ENGINEERING REPORT
1992 PAY AS YOU GO PROGRAM

MOBILE COUNTY COMMISSION
"SAMUEL L. JONES
JAMES L. "JIM" MASON
WILLIAM J. "BILL" MENTON
INTRODUCTION

This Preliminary Engineering Report for the 1992 Pay As You Go Program has been prepared at the direction of the MOBILE COUNTY COMMISSION by the Mobile County Engineering Department. This report has three segments: Programs Funds, Program Summary, and Project Details. A brief description of the information included in each segment follows:

PROGRAM FUNDS

The Program Funds segment indicates the amount of Funding each Governmental Agency involved in this Program will share in the total Program Funding.

PROGRAM SUMMARY

The Program Summary segment has a spreadsheet format and indicates each project in the Program by Project Name and Project Number. This segment also indicates the limits of the projects, the type work to be performed, and an estimated cost for each project. The abbreviations used for the type work are further itemized on the last page of this segment. This last page also has the special notes for some of the projects that have more than one agency involved in funding the project. These notes indicate which agency will administer the project and the share of the funds that each agency will provide.

The Project numbers are set in Groups. The MCR-4992-000 Group of Projects include six projects that are included in a Federal Aid Agreement between the State of Alabama and Mobile County Commission. This group of projects completes an entire loop around the urbanized area of Mobile County. This Loop Road will connect the East-West and North-South Arteries and Collectors that enter the City of Mobile, the City of Prichard, the City of Saraland, and provide additional access to the Cities of Chickasaw, Satsuma and Creola. This connection will give the citizens in the North and South portions of the County more direct access to the Airport and should relieve some of the congestion on some of the major collectors such as Airport Boulevard. The ultimate plan is for this loop to be a five lane facility from end to end. Two sections of this loop that run along Schillinger Road from Howell’s Ferry Road to Cottage Hill Road will be five laned in this Program. The three new sections of road that need to be constructed to complete the loop will be constructed in this Program as two lane roads. Intersection Improvements and some widening of existing sections will also be a part of this Program. These projects are being funded by $15,600,000 Federal Funds, and $10,200,000 Mobile County 1992 Pay As You Go Program Funds for a total of $25,800,000.
County Commission District One (MCR-4992-100) Group of Projects includes several projects in the unincorporated portions of District One and at least one project in each of the following Municipalities: Chickasaw, Citronelle, Creola, Mobile, Mt. Vernon, Prichard, Saraland, and Satsuma. This Group of Projects will be funded by $9,600,000 of Mobile County 1992 Pay As You Go Program Funds.

County Commission District Two (MCR-4992-200) Group of Projects includes several projects in the unincorporated portions of District Two and at least one project in each of the following Municipalities: Mobile and Wilmer. This Group of Projects will be funded by $9,600,000 of Mobile County 1992 Pay As You Go Program Funds and $300,000 of City of Mobile Funds for a total of $9,900,000.

County Commission District Three (MCR-4992-300) Group of Projects includes several projects in the unincorporated portions of District Three and at least one project in the City of Bayou La Batre. This Group of Projects will be funded by $9,600,000 of Mobile County 1992 Pay As You Go Program Funds.

PROJECT DETAILS

The remaining segment of this Report has itemized details of each road that is included in each project in the Program. Each road has a brief description of the work to be performed in that project. Any special funding agreements for each road will also be detailed in these descriptions. Each road in each project will also be displayed on a map that follows the detailed description of the project.

The cost estimate indicated in this segment includes the cost of construction, the engineering design and construction quality assurance fees, the preliminary and construction materials testing, Right of Way Acquisition, and Administrative cost for the Program.

All Funding itemized above is based on the passage of the Pay As You Go Program Referendum to be voted on by the registered voters of Mobile County on November 3, 1992. Upon approval of the voters, a tentative construction schedule will be set for these projects. This is a four year Program. Therefore, the intent is to have the last of the 56 Projects in this Program under construction by November 1996.

1992 MOBILE COUNTY
PAY-AS-YOU-GO PROGRAM SUMMARY

W & R: WIDEN AND RESURFACE; This will include widening of existing pavement, resurfacing and pavement markings.

R : RESURFACE; This will include existing width of paved road and pavement markings.

IMP : INTERSECTION IMPROVEMENTS; This may include improvements in all approaches to intersection and pavement markings.

GDBP : GRADE, DRAIN, BASE & PAVE; This may include outfall drainage and pavement markings.

BR : BRIDGE REPLACEMENT; This may include some roadway improvements on the approaches to the bridge and pavement markings.

The cost estimate indicated in this segment includes the cost of construction, the engineering design and construction quality assurance fees, the preliminary and construction materials testing, Right of Way Acquisition, and Administrative cost for the Program.

Note 001: The Administration of this project will be performed by the Alabama Highway Department. This project will be funded by 80% Federal funds and 20% County funds. The road will be maintained as a State highway upon completion.

Note 002: The Administration of this project will be performed by the Alabama Highway Department and will be funded by 80% Federal Funds and 20% County funds.

Note 003: The Administration of this project will be performed by the Alabama Highway Department and will be funded by 80% Federal funds and 20% County funds.

Note 004: The Administration of this project will be performed by the Mobile County Engineering Department and will be funded by 100% County 1992 Pay As You Go funds.

Note 005: The Administration of this project will be performed by the Mobile County Engineering Department and will be funded by 100% County 1992 Pay As You Go funds.

Note 104: The Administration of this project will be performed by the City of Mobile Engineering Department. The project will be funded by the City of Mobile with a maximum of $600,000.00 reimbursement of construction funds by Mobile County.
Note 107: The Administration of this project will be performed by the City of Saraland. Mobile County will reimburse the City of Saraland for construction costs not to exceed $300,000.00.

Note 202: The Administration of this project will be performed by the Mobile County Engineering Department. The project will be funded on a 50/50 basis with the City of Mobile with a $300,000.00 maximum for the City of Mobile's match.

Note 204: The Administration of this project will be performed by the City of Mobile Engineering Department. The project will be funded by the City of Mobile with a match of $100,000.00 reimbursement of construction funds by Mobile County.

Note 212: The Administration of this project will be performed by the City of Mobile Engineering Department. The project will be funded by the City of Mobile with a maximum of $500,000.00 reimbursement of construction funds by Mobile County.

Note 218: The Administration of this project will be performed by the City of Mobile Engineering Department. The project will be funded by the City of Mobile with a match of $500,000.00 reimbursement of construction funds by Mobile County.
PROJECT: MCR-4992-001
ITEM: 1 of 1

Road Name: INDUSTRIAL PKWY (AL HWY 158)
From: U.S. HWY 45
To: LOTT RD

Description: This project includes the construction of a new two lane roadway and the paving of a short section of a dirt road. This project will include grade, drain, base, pave, bridges, intersection improvements, traffic markings, signalization, and R.O.W.

Funding: The administration of this project will be performed by the Alabama Highway Department. This project will be funded by 80% Federal funds and 20% County funds. The road will be maintained as a State highway upon completion.

Length: 5.3 Miles

Estimate: $6,598,000.00
INDUSTRIAL PARKWAY EXTENSION

MOBILE COUNTY COMMISSION
1992 PAY AS YOU GO PROGRAM
MCR-4992-001
PROJECT: MCR-4982-002
ITEM: 1 of 1

Road Name: SCHILLINGER RD N
From: AIRPORT BLVD
To: HOWELL'S FERRY RD

Description: This is an existing two lane road that will be widened to five lanes. This project will include grade, drain, base, pave, resurfacing, curb and gutter, drainage improvements, signalization, traffic markings, utility relocation and R.O.W.

Funding: The Administration of this project will be performed by the Alabama Highway Department and will be funded by 80% Federal funds and 20% County funds.

Length: 2.4 Miles

Estimate: $6,218,000.00
PROJECT: MCR-4992-003
ITEM: 1 of 1

Road Name: SCHILLINGER RD S
From: AIRPORT BLVD
To: COTTAGE HILL RD

Description: This is an existing two lane road that is to be widened to 5 lanes and resurfaced. This project will include grade, drain, base, pave, curb and gutter, intersection improvements, signalization, traffic markings, utility relocation and R.O.W.

Funding: The Administration of this project will be performed by the Alabama Highway Department and will be funded by 80% Federal funds and 20% County funds.

Length: 3.1 Miles

Estimate: $6,670,000.00
PROJECT: MCR-4992-004
ITEM: 1 of 1

Road Name: SCHILLINGER \ THEODORE DAWES
From: THREE NOTCH RD
To: INTERSTATE 10

Description: This project includes the construction of a new two lane road and widening\resurfacing of a two lane road. This project will include grade, drain, base, pave, intersection improvements, signalization, traffic markings and ROW.

Funding: The Administration of this project will be performed by the Mobile County Engineering Department and will be funded by 100% County 1992 Pay As You Go funds.

Length: 2.7 Miles

Estimate: $3,356,530.00
PROJECT: MCR-4992-005
ITEM: 1 of 1

Road Name: THEODORE DAWES RD
From: U.S. HWY 90
To: INTERSTATE 10

Description: This project includes the construction of a new two lane road and widening/resurfacing of a two lane road. This project will include grade, drain, base, pave, intersection improvements, signalization, traffic markings and ROW.

Funding: The Administration of this project will be performed by the Mobile County Engineering Department and will be funded by 100% County 1992 Pay As You Go funds.

Length: 2.0 Miles

Estimate: $2,957,470.00
