

Mobile County 2012 Transportation Pay-As-You-Go Program

Mobile County Commission
District 1 - Merceria Ludgood
District 2 - Connie Hudson
District 3 - Mike Dean

**MOBILE COUNTY COMMISSION
2012 TRANSPORTATION
PAY-AS-YOU-GO PROGRAM**

INTRODUCTION

The **MOBILE COUNTY COMMISSION** directed the Mobile County Engineering Department to prepare the following Preliminary Engineering Report for the proposed 2012 Transportation Pay-As-You-Go Program.

PROPOSED APPROPRIATION OF FUNDS

MOBILE COUNTY COMMISSION 2012 TRANSPORTATION

PAY-AS-YOU-GO PROGRAM FUNDS	\$31,000,000
-----------------------------	--------------

STATE FUNDS	<u>\$10,000,000</u>
-------------	---------------------

TOTAL PROGRAM FUNDING	\$41,000,000
-----------------------	--------------

All Mobile County 2012 Transportation Pay-As-You-Go Program funding itemized in this report is based on the passage of the 2012 Transportation Pay-As-You-Go Program referendum to be voted on by the voters of Mobile County on November 6, 2012.

PROGRAM SUMMARY

The Program Summary sheet indicates the Project Number, Road Name (s), Begin Project, End Project, Length (rounded to the nearest 0.1 mile), Type of Work and Estimated Total Cost of each project. The estimated cost shown for each project, unless noted as matching funds, includes the construction, professional engineering design, construction quality assurance, preliminary and construction geotechnical engineering, environmental permitting, right-of-way acquisition, utility relocations, and administration for the program. If the estimated cost is noted as matching funds, the amount shown is an appropriation intended to help match Federal Funds.

COUNTY WIDE PROJECTS

The County Wide Projects (MCR-2012-000 series) are selected by the Commission for their benefit to the entire county regardless of which county commission district they are located.

DESCRIPTION AND FUNDING FOR EACH PROJECT

Project MCR-2012-001 (Tanner Williams Road) includes the widening of the existing road section to five lanes from Snow Road North to Zeigler Boulevard and a new bridge over Pierce Creek. This project will be funded with a combination of State Funds and 2012 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2012-002 (Dawes Road @ McFarland Road) includes intersection improvements for the intersection of Dawes Road at McFarland Road. This project will be funded with 2012 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2012-003 (Brookley Aeroplex Streets) includes resurfacing several streets (Perimeter Road, Michigan Avenue, Fifteenth Street, Nowlin Street, O'Donoghue Street and Madea Street) and the reconstruction of Ninth Street. This project will be funded with 2012 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the Mobile Airport Authority with assistance from the City of Mobile's Engineering Department.

COMMISSION DISTRICT PROJECTS

DESCRIPTION AND FUNDING FOR EACH PROJECT

MCR-2012-100 Projects - These projects will be constructed within the boundaries of County Commission District One and will be funded with \$7,000,000 from the Mobile County 2012 Transportation Pay-As-You-Go Program. MCR-2012-101 includes the resurfacing of a segment of one street and the reconstruction of a segment of another street in the City of Mobile. The administration of the design and construction of this project will be performed by the City of Mobile's Engineering Department. This project will be funded by the City of Mobile with reimbursement from the 2012 Transportation Pay-As-You-Go Program funds on a road by road basis with a maximum reimbursable amount of \$2,255,000. MCR-2012-102 provides matching funds for the reconstruction of Wilson Avenue in the City of Prichard. The administration of the design and construction of this project will be the responsibility of the City of Prichard. MCR-2012-103 through MCR-2012-107 are projects that are located in various other municipalities. The administration of the design and construction of these projects will be performed by the County Engineering Department. MCR-2012-108 provides partial matching funds for the construction of a new I-65 Service Road in the City of Saraland. The administration of the design and construction of this project will be the responsibility of the City of Saraland. MCR-2012-109 and MCR-2012-110 are projects that will pave existing county maintained unpaved roads. The administration of the design and construction of these projects will be performed by the County Engineering Department.

MCR-2012-200 Projects – With the exception of one project and a portion of another, these projects will be constructed within the boundaries of County Commission District Two. All of the projects will be funded with \$7,000,000 from the Mobile County 2012 Transportation Pay-As-You-Go Program. MCR-2012-201 includes the resurfacing of many streets and intersection improvements at the intersection of N. McGregor Avenue with Museum Drive in the City of Mobile. The administration of the design and construction of this project will be performed by the City of Mobile's Engineering

Department. The project will be funded by the City of Mobile with reimbursement from the 2012 Transportation Pay-As-You-Go Program funds on a road by road basis, with a maximum reimbursement of \$2,452,300. MCR-2012-202 through MCR-2012-208 are projects that will pave several existing county maintained unpaved roads. MCR-2012-209 will resurface a segment of existing pavement and pave a segment of new road. MCR-2012-210 will provide safety improvements to a segment of an existing county maintained paved road in Commission District 3. MCR-2012-211 will provide partial matching funds for the resurfacing of Beverly Jefferies Highway and a portion of Prine Road. The administration of the design and construction of these projects will be performed by the County Engineering Department.

MCR-2012-300 Projects - These projects will be constructed within the boundaries of County Commission District Three and will be funded with \$7,000,000 from the Mobile County 2012 Transportation Pay-As-You-Go Program. MCR-2012-301 and MCR-2012-302 are for projects in the Town of Dauphin Island and the City of Bayou La Batre respectively. The administration of the design and construction of these projects will be performed by the County Engineering Department. MCR-2012-303 is a project that will resurface a street, the majority of which is county maintained, along with a short segment that is maintained by the City of Mobile. MCR-2012-304 through MCR-2012-308 are projects that will pave existing county maintained unpaved roads. The administration of the design and construction of these projects will be performed by the County Engineering Department. MCR-2012-309 will provide safety improvements to a segment of an existing county maintained paved road. The administration of the design and construction will be performed by the County Engineering Department. MCR-2012-310 will provide improvements to the intersection of three (3) paved roads maintained by the county. The administration of the design and construction will be performed by the County Engineering Department.

TYPE OF WORK

DEFINITIONS

2012

- ADL:** **ADDITIONAL LANES:** This may include clearing, grubbing, grade, drain, base, pave, patching, leveling, milling, resurfacing, pavement markings, shoulder work, traffic control installation, intersection improvements, drainage improvements, utility relocations as required by law, right-of-way and/or drainage easement acquisitions, and any other work necessary for the completion of the project.
- RRR:** **RESURFACING, RESTORATION, AND REHABILITATION:** This may include clearing, patching, leveling, milling, resurfacing, paving of a portion of the shoulder, pavement markings, minor drainage improvements, safety improvements, traffic control installation, utility relocations as required by law, intersection improvements, right-of-way and/or drainage easement acquisitions, and any other work necessary for the completion of the project.
- GDBP:** **GRADE, DRAIN, BASE & PAVE:** This may include clearing, grubbing, grade, drain, base, pave, guardrail improvements, intersection improvements, pavement markings, traffic control installation, utility relocations as required by law, right-of-way and/or drainage easement acquisitions, and any other work necessary for the completion of the project.
- BR:** **BRIDGE:** This may include clearing, grubbing, removal of old bridge, grade, drain, base, pave, new bridge, guardrail improvements, pavement markings, utility relocations as required by law, right-of-way and/or drainage easement acquisitions, and any other work necessary for the completion of the project.

INT IMP: INTERSECTION IMPROVEMENTS: This may include clearing, grubbing, grade, drain, base, pave, patching, leveling, milling, resurfacing, guardrail improvements, pavement markings, traffic control installation, utility relocations as required by law, right-of-way and/or easement acquisitions, and any other work necessary for the completion of the project.

PROGRAM MAPS

The last segment of this report includes one or more maps for each project to show the begin and end of each road in the project and the vicinity of that project. Each map has a brief description of the type of work, including any special details, to be accomplished in that project.
