

Mobile County 2014 Transportation Pay-As-You-Go Program

Mobile County Commission
District 1 - Merceria Ludgood
District 2 - Connie Hudson
District 3 - Jerry Carl

**MOBILE COUNTY COMMISSION
2014 TRANSPORTATION
PAY-AS-YOU-GO PROGRAM**

INTRODUCTION

The **MOBILE COUNTY COMMISSION** directed the Mobile County Engineering Department to prepare the following Preliminary Engineering Report for the proposed 2014 Transportation Pay-As-You-Go Program.

PROPOSED APPROPRIATION OF FUNDS

MOBILE COUNTY COMMISSION 2014 TRANSPORTATION PAY-AS-YOU-GO PROGRAM FUNDS	\$ 54,000,000
FEDERAL FUNDS	<u>\$ 11,700,000</u>
TOTAL PROGRAM FUNDING	\$ 65,700,000

All Mobile County 2014 Transportation Pay-As-You-Go Program funding itemized in this report is based on the passage of the 2014 Transportation Pay-As-You-Go Program referendum to be voted on by the voters of Mobile County on November 4, 2014.

PROGRAM SUMMARY

The Program Summary sheet indicates the Project Number, Road Name (s), Begin Project, End Project, Length (rounded to the nearest 0.1 mile), Type of Work and Estimated Total Cost of each project. The estimated cost shown for each project, unless noted as matching funds or containing Capital Improvement Program funds, includes the construction, professional engineering design, construction quality assurance, preliminary and construction geotechnical engineering, environmental permitting, right-of-way acquisition, utility relocations, and administration for the program. If the estimated cost is noted as matching funds, the amount shown is an appropriation intended to help match Federal funds.

COUNTY WIDE PROJECTS

The County Wide Projects (MCR-2014-000 series) are selected by the Commission for their benefit to the entire county regardless of which county commission district they are located.

DESCRIPTION AND FUNDING FOR EACH PROJECT

Project MCR-2014-001 (Replace Bridge No. 76, Padgett Switch Road over Carls Creek) includes the removal of the existing two lane bridge carrying Padgett Switch Road over Carls Creek and constructing a new two lane bridge with realigned approaches. This project will be funded with a combination of Federal funds, Capital Improvement Program funds and 2014 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2014-002 (Replace Bridge No. 11, Wilmer-Georgetown Road over Big Creek) includes the removal of the existing two lane bridge carrying Wilmer-Georgetown Road over Big Creek and constructing a new two lane bridge with realigned approaches. This project will be funded with a combination of Federal funds, Capital Improvement Program funds and 2014 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2014-003 (Theodore Dawes Road) includes the paving of a portion of the shoulder and resurfacing the road (RRR) from the I-10 Service Road eastward to the Mobile City Limits. This project will be funded with 2014 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2014-004 (Bellingrath Road) includes the reconstruction (GDB&P) of a 0.6 mile segment of Bellingrath Road in the vicinity of Fowl River. This project will be funded with 2014 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2014-005 (West Lake Road North) includes the construction of a new paved road (GDB&P) from West Lake Road northward to Johnson Road South. This project will be funded with 2014 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2014-006 (Glass Road) includes the paving of an existing segment of unpaved county road (GDB&P) and the construction of a new paved road (GDB&P) thereby creating a connecting road from the west end of Hurricane Blvd. to Hwy. 188. This project will be funded with 2014 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department

Project MCR-2014-007 (Radcliff Road) includes the resurfacing of the road (RRR) from Celeste Road eastward to Highway 43. This project will be funded with 2014 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2014-008 (Snow Road S. and Snow Road N.) includes the resurfacing of the road (RRR) from Airport Blvd northward to Tanner Williams Road. This project will be funded with 2014 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2014-009 (Henderson Camp Road) includes the paving of a portion of the shoulder and resurfacing the paved road (RRR) from Hwy. 188 to the south end of pavement. This project will be funded with a combination of Capital Improvement Program funds and 2014 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2014-010 (Ramsey Road) includes the paving of a portion of the shoulder and resurfacing the road (RRR) from Hwy. 188 northward to Old Pascagoula Road. This project will be funded with 2014 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2014-011 (Henry Davis Road) includes the resurfacing of the road (RRR) from Celeste Road eastward to Broad Branch Road. This project will be funded with 2014 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2014-012 (Dawes Road) includes the paving of a portion of the shoulder and resurfacing the road (RRR) from Three Notch Road northward to Cottage Hill Road. This project will be funded with a combination of Capital Improvement Program funds, 2014 Transportation Pay-As-You-Go Program funds and Federal funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2014-013 (Dawes Road) includes the widening of the existing road section (ADL) from Cottage Hill Road northward to 0.1 mile south of Jeff Hamilton Road. This project will be funded with a combination of Capital Improvement Program funds and 2014 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2014-014 (Tanner Williams Road) includes the paving of a portion of the shoulder and resurfacing the paved road (RRR) from Wilmer Road eastward to 0.2 mile west of Eliza Jordan Road North. This project will be funded with a combination of Capital Improvement Program funds, 2014 Transportation Pay-As-You-Go Program funds and Federal funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2014-015 (Dawes Road) includes the paving of a portion of the shoulder and resurfacing the road (RRR) from Grand Bay Wilmer Road South eastward to Three Notch Road. This project will be funded with a combination of Capital Improvement Program funds, 2014 Transportation Pay-As-You-Go Program funds and Federal funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

COMMISSION DISTRICT PROJECTS

DESCRIPTION AND FUNDING FOR EACH PROJECT

MCR-2014-100 Projects These projects will be constructed within the boundaries of County Commission District One and will be funded with \$9,000,000 from the Mobile County 2014 Transportation Pay-As-You-Go Program. MCR-2014-101 includes the resurfacing of many streets in the City of Mobile. The administration of the design and construction will be performed by the City of Mobile's Engineering Department. The project will be funded by the City of Mobile with reimbursement from the 2014 Transportation Pay-As-You-Go Program, with a maximum reimbursement of \$1,282,000. MCR-2014-102 through MCR-2014-105 are resurfacing projects that are located in various other municipalities. The administration of the design and construction of these projects will be performed by the County Engineering Department. MCR-2014-106 includes the resurfacing of several streets and the reconstruction of two streets in the City of Prichard. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2014-107 provides partial matching funds for the modifications to the interchange of I-65 with Celeste Road in the City of Saraland. The administration of the design and construction of this project will be the responsibility of the City of Saraland. MCR-2014-108 includes the paving of two unpaved roads and the resurfacing of several streets in the City of Satsuma. The administration of the design and construction will be performed by the County Engineering Department. MCR-2014-109, MCR-2014-110 and MCR-2014-111 are projects that will pave existing County maintained unpaved roads. The administration of the design and construction of these projects will be performed by the County Engineering Department.

MCR-2014-200 Projects With the exception of one project, these projects will be constructed within the boundaries of County Commission District Two. All of the projects will be funded with \$9,000,000 from the Mobile County 2014 Transportation Pay-As-You-Go Program. MCR-2014-201 includes the resurfacing of many streets in the City of Mobile. The administration of the design and construction of this project will be performed by the City of Mobile's Engineering Department. This project will be funded by the City of Mobile with reimbursement from the 2014 Transportation Pay-As-You-Go Program, with a maximum reimbursement of \$1,965,000. MCR-2014-202 includes the resurfacing of several streets in the City of Semmes. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2014-203 includes the resurfacing of several existing County paved streets. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2014-204, MCR-2014-205 and MCR-2014-206 are projects that will pave existing County maintained unpaved roads. The administration of the design and construction of these projects will be performed by the County Engineering Department. MCR-2014-207 includes the resurfacing of Lees Lane, and the widening and resurfacing of a portion of Halls Mill Road. This project also includes the construction of turn lanes on Halls Mill Road at Lees Lane and the entrance to the proposed soccer complex. Although these streets are within the City of Mobile, the administration of the design and construction of this project will be performed by the County Engineering Department.

MCR-2014-300 Projects These projects will be constructed within the boundaries of County Commission District Three and will be funded with \$9,000,000 from the Mobile County 2014 Transportation Pay-As-You-Go Program. MCR-2014-301 includes the resurfacing of many streets in the City of Mobile. The administration of the design and construction of this project will be performed by the City of Mobile's Engineering Department. This project will be funded by the City of Mobile with reimbursement from the

2014 Transportation Pay-As-You-Go Program, with a maximum reimbursement of \$1,247,000. MCR-2014-302 includes the resurfacing of several streets in the City of Bayou La Batre. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2014-303 includes the resurfacing of several streets in the Town of Dauphin Island. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2014-304 through MCR-2014-307 are projects that will pave existing County maintained unpaved roads. The administration of the design and construction of these projects will be performed by the County Engineering Department.

TYPE OF WORK

DEFINITIONS

2014

- ADL:** **ADDITIONAL LANES:** This may include clearing, grubbing, grade, drain, base, pave, patching, leveling, milling, resurfacing, pavement markings, shoulder work, traffic control installation, intersection improvements, drainage improvements, utility relocations as required by law, right-of-way and/or drainage easement acquisitions, and any other work necessary for the completion of the project.
- RRR:** **RESURFACING, RESTORATION, AND REHABILITATION:** This may include clearing, patching, leveling, milling, minor widening of travel lane, minor widening of the shoulder, minor alterations to vertical and horizontal alignment, resurfacing, paving of a portion of the shoulder, pavement markings, minor drainage improvements, safety improvements, traffic control installation, utility relocations as required by law, intersection improvements, right-of-way and/or drainage easement acquisitions, and any other work necessary for the completion of the project.
- GDBP:** **GRADE, DRAIN, BASE & PAVE:** This may include clearing, grubbing, grade, drain, base, pave, guardrail improvements, intersection improvements, pavement markings, traffic control installation, utility relocations as required by law, right-of-way and/or drainage easement acquisitions, and any other work necessary for the completion of the project.

BR: **BRIDGE:** This may include clearing, grubbing, removal of old bridge, grade, drain, base, pave, new bridge, guardrail improvements, pavement markings, utility relocations as required by law, right-of-way and/or drainage easement acquisitions, environmental permitting and any other work necessary for the completion of the project.

INT IMP: **INTERSECTION IMPROVEMENTS:** This may include clearing, grubbing, grade, drain, base, pave, patching, leveling, milling, resurfacing, guardrail improvements, pavement markings, traffic control installation, utility relocations as required by law, right-of-way and/or easement acquisitions, and any other work necessary for the completion of the project.

PROGRAM MAPS

The last segment of this report includes one or more maps for each project to show the begin and end of each road in the project and the vicinity of that project. Each map has a brief description of the type of work, including any special details, to be accomplished in that project.
