Re: FY2020 Mobile County Transportation Plan Report

Dear Commissioners,

As required by Act 2019-2, Section 11 (e), known as the Rebuild Alabama Act, I am submitting the attached report of activities involving projects that were designated to receive funding in the FY2020 Mobile County Transportation Plan, adopted by the County Commission on August 26, 2019. No amendments to the FY2020 Mobile County Transportation Plan were adopted by the County Commission.

The funding categories are divided into two separate columns, one is listed as the CRAF (County Rebuild Alabama Fund) Amount and one is listed as the FAEF (Federal Aid Exchange Fund) Amount. The CRAF funds may be used for the maintenance, improvement, replacement, and construction of roads and bridges maintained by the county. The FAEF funds may be used on county roads classified as minor collectors or higher and/or for bridge structures on the National Bridge Inspection Inventory.

Based on information provided by the Association of County Commissions of Alabama (ACCA), Mobile County was estimated to receive $2,506,396 in FY2020 with the actual receipts
being slightly less at $2,319,370. This could be attributed to the COVID-19 pandemic that has drastically reduced travel since March 2020.

The Mobile County Engineering Department assigned the design of project RA49-02-20, Resurfacing Sollie Road, to an engineering consultant with the plans being completed in August 2020. An Intergovernmental Agreement was executed between the City of Mobile and Mobile County since a portion of this project was inside the city limits of the City of Mobile. The City of Mobile adopted the Intergovernmental Agreement by resolution on June 23, 2020 and the county commission approved the Intergovernmental Agreement on August 10, 2020. Bids for Project RA49-02-20, Resurfacing Sollie Road, were received on October 14, 2020 with the project being awarded to Mobile Asphalt Company. Actual construction did not begin until FY 2021; therefore no costs associated with the CRAF funds for this project are being reported.

The Mobile County Engineering Department assigned the design of project RA49-03-20, Resurfacing Sam Lewis Road, to an engineering consultant with the plans being completed in August 2020. Bids were received for Project RA49-03-20, Resurfacing Sam Lewis Road, on September 30, 2020 with the project being awarded to John G. Walton Construction Co., Inc. Actual construction did not begin until FY 2021; therefore no costs associated with the CRAF funds for this project are being reported.

Asphalt purchases were made by the Mobile County Public Works Department using the county’s annual bid and are reported on the attached form. The estimated expenditures were $214,000 with the actual expenses being $463,528. The asphalt materials were purchased from H.O. Weaver and Sons, Mobile Asphalt Company, John G. Walton Construction Co., Inc., and Blacklidge Emulsions, Inc.

The FAEF funds are being used on Project RA-MCP-49-82-15 (Project MCR-2014-012(B)), resurfacing Dawes Road from approximately 365 feet north of Scott Dairy Loop Road S. to approximately 800 feet south of Cottage Hill Road. This project will use the remaining federal aid funds that have been made available to Mobile County through the Alabama Department of Transportation (ALDOT), and the FY2020 and FY2021 FAEF funds. This project is tentatively scheduled for a bid opening through ALDOT on March 26, 2021.

Expenses for Projects RA-MCP-49-82-15, RA49-02-20, RA-49-03-20 along with any expenses incurred for projects listed in the FY2021 Mobile County Transportation Plan will be reported in my annual report to the commission in January 2022.

Should any questions arise pertaining to this report, please do not hesitate to give me a call.

Sincerely,

[Signature]

W. Bryan Kegley II, P.E., P.L.S.
County Engineer

### Notes:
- Only Rebuild Alabama Funds are intended to be reported
- Total Miles Addressed this Fiscal Year (Total Mileage Does Not Include Bridge Projects) = 5.69
- Total Rebuild Funds Expended this Fiscal Year = $463,528.00
- Total CRAF/FAEF Remaining = $1,855,642.00
- $405,000.00

### Remarks:
- Map 2, RA49-02-20, Bids received October 14, 2020
- Map 3, RA49-03-20, Bids received September 30, 2020
- No County Transportation Plan Amendments were made in FY 2020.
