Mobile County 2022 Transportation Pay-As-You-Go Program

Mobile County Commission

District 1 - Merceria Ludgood

District 2 - Connie Hudson

District 3 - Randall Dueitt

MOBILE COUNTY COMMISSION 2022 TRANSPORTATION PAY-AS-YOU-GO PROGRAM

INTRODUCTION

The **MOBILE COUNTY COMMISSION** directed the Mobile County Engineering Department to prepare the following Preliminary Engineering Report for the proposed Mobile County Commission 2022 Transportation Pay-As-You-Go Program.

PROPOSED APPROPRIATION OF FUNDS

MOBILE COUNTY COMMISSION 2022 TRANSPORTATION

 PAY-AS-YOU-GO PROGRAM FUNDS
 \$ 69,000,000

 FEDERAL FUNDS
 \$ 4,800,000

 TOTAL PROGRAM FUNDING
 \$ 73,800,000

All Mobile County Commission 2022 Transportation Pay-As-You-Go Program funding itemized in this report is based on the passage of the Mobile County Commission 2022 Transportation Pay-As-You-Go Program referendum to be voted on by the voters of Mobile County on November 8, 2022.

PROGRAM SUMMARY

The Program Summary indicates the Project Number, Road Name(s), Begin Project, End Project, Length (rounded to the nearest 0.1 mile), Type of Work and Estimated Total Cost of each project. The estimated cost shown for each project, unless noted as matching funds, includes the professional engineering design, construction, construction quality assurance, preliminary and construction geotechnical engineering, environmental permitting, right-of-way acquisition, utility relocations, and administration for the program. If the estimated cost is noted as matching funds, the amount shown is an appropriation intended to help match federal funds, state funds, or municipal funds.

COUNTY WIDE PROJECTS

The County Wide Projects (MCR-2022-000 series) are selected by the Commission for their benefit to the entire county, regardless of which county commission district they are located.

DESCRIPTION AND FUNDING FOR EACH PROJECT

Project MCR-2022-001 (South McGregor Avenue) includes the widening of an existing road section to three or more lanes from Airport Boulevard northward to Dauphin Street, a new bridge culvert over Eslava Creek, and intersection improvements for the intersection of Dauphin Street/Wimbledon Drive East at South McGregor Avenue. This project will be funded with a combination of federal funds and City of Mobile funds with a maximum reimbursement of \$1,200,000 from the 2022 Transportation Pay-As-You-Go Program. This project will supplement the South McGregor Avenue funding as defined within the MCR-2016-006 project. The administration of the design and construction of this project will be performed by the City of Mobile Engineering Department.

Project MCR-2022-002 (Mobile Aeroplex at Brookley Streets) includes constructing (GDBP) a portion of a new Terminal Roadway Loop, constructing (GDBP) intersection improvements for the intersection of Perimeter Road with the new Terminal Roadway Loop, constructing (GDBP) a new FBO Access Road, and resurfacing (RRR) a segment of Michigan Avenue from the intersection with the new FBO Access Road to the end of maintenance. This project will be funded by the Mobile Airport Authority with a maximum reimbursement from the 2022 Transportation Pay-As-You-Go Program of \$5,000,000. The administration of the design and construction of this project will be performed by the Mobile Airport Authority.

Project MCR-2022-003 (City of Mobile Streets) includes the resurfacing (RRR) of several streets or segments of streets listed herewith: Bel Air Boulevard from Cottage Hill Road to Airport Boulevard; Cottage Hill Road from Sollie Road to Bel Air Boulevard; Demetropolis Road from Executive Park Drive to Government Boulevard; Howells Ferry Road from Cody Road North to Moffett Road (Hwy 98); Pleasant Valley Road from Cottage Hill Road to Halls Mill Road; Springhill Avenue from Broad Street to North Washington Avenue; North Washington Avenue from Dauphin Street to Adams Street; and South Washington Avenue from South Broad Street to Dauphin Street. This project will be funded with City of Mobile funds with a maximum reimbursement from the 2022 Transportation Pay-As-You-Go Program of \$6,103,000. The administration of the design and construction of this project will be performed by the City of Mobile Engineering Department.

Project MCR-2022-004 (City of Mobile Street – North McGregor Avenue) includes the reconstruction (RECON) of North McGregor Avenue from Old Shell Road to Springhill Avenue. This project will be funded with City of Mobile funds with a maximum reimbursement from the 2022 Transportation Pay-As-You-Go Program of \$400,000. The administration of the design and construction of this project will be performed by the City of Mobile Engineering Department.

Project MCR-2022-005 (Cottage Hill Road, McFarland Road, and Snow Road South) includes the widening (ADL) of the existing road sections to five or more lanes. The Cottage Hill Road widening begins 0.2 mile west of McFarland Road and continues to 0.1 mile east of Dawes Road. The McFarland Road/Snow Road South widening begins 0.2 mile south of Cottage Hill Road and continues to 0.2 mile north of Jeff Hamilton Road. This project will be funded with 2022 Transportation Pay-As-You-Go Program funds. This

project will supplement the Cottage Hill Road, McFarland Road, Snow Road South funding contained within the MCR-2020-001 project. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2022-006 (Lumpkin Road) includes constructing a new roadway (GDBP) from Airport Boulevard to the intersection of Calvert Road North with Lumpkin Road; thence pave (GDBP) the existing unpaved segment of Lumpkin Road from Calvert Road North to 0.6 mile north of Calvert Road North. This project will be funded with 2022 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2022-007 (Windsor Road West) includes replacing two existing bridges (BR) over tributaries to Fowl River and realigning (GDBP) the paved bridge approaches. This project will be funded with 2022 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2022-008 (Foster Road) includes the paving (GDBP) of an existing unpaved County maintained road from Tanner Williams Road to Zeigler Boulevard. This project will be funded with 2022 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

Project MCR-2022-009 (Weaver Road East Realignment) includes the realignment (GDBP) of an existing section of Weaver Road East from 1.0 mile west of U.S. 43 eastward to U.S. 43. This project will be funded with 2022 Transportation Pay-As-You-

Go Program funds. This project will supplement the Weaver Road East funding contained within the MCR-2018-004 project. The administration of the design and construction of this project will be performed by the County Engineering Department.

MCR-2022-010 (City of Prichard Streets) includes replacing three bridge culverts (BR) over Crystal Springs Branch. Site No. 1 will replace the bridge culvert on Old Citronelle Highway over Crystal Springs Branch. Site No. 2 will replace the bridge culvert on South Crystal Springs Road over Crystal Springs Branch. Site No. 3 will replace the bridge culvert on Sandhill Drive over Crystal Springs Branch. This project will be funded with 2022 Transportation Pay-As-You-Go Program funds. The administration of the design and construction of this project will be performed by the County Engineering Department.

COMMISSION DISTRICT PROJECTS

DESCRIPTION AND FUNDING FOR EACH PROJECT

MCR-2022-100 Projects These projects will be constructed within the boundaries of County Commission District One and will be funded with \$12,000,000 from the Mobile County Commission 2022 Transportation Pay-As-You-Go Program. MCR-2022-101 includes the resurfacing (RRR) of several streets or segments of streets within the City of Mobile. This project will be funded by the City of Mobile with a maximum reimbursement of \$3,924,000 from the 2022 Transportation Pay-As-You-Go Program. The administration of the design and construction of this project will be performed by the City of Mobile Engineering Department. MCR-2022-102 includes the paving (GDBP) of two unpaved streets and the resurfacing (RRR) of one street located within and maintained by the City of Chickasaw. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2022-103 includes the resurfacing (RRR) of one street located within and maintained by the City of Citronelle. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2022-104 includes the resurfacing (RRR) of two streets located within and maintained by the City of Creola. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2022-105 includes the resurfacing (RRR) of three streets located within and maintained by the Town of Mt. Vernon. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2022-106 includes the paving (GDBP) of one existing unpaved road and the resurfacing (RRR) of several other paved roads located within and maintained by the City of Prichard. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2022-107 provides partial

matching funds with a maximum reimbursement of \$1,000,000 for additional lanes (ADL) on a segment of Celeste Road in the City of Saraland. The administration of the design and construction of this project will be the responsibility of the City of Saraland. MCR-2022-108 includes the resurfacing (RRR) of two streets located within and maintained by the City of Satsuma. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2022-109 includes the paving (GDBP) of one County unpaved road and the paving (GDBP) of a portion of another County unpaved road. The administration of the design and construction of this project will be performed by the County Engineering Department.

MCR-2022-200 Projects With the exception of one project, these projects will be constructed within the boundaries of County Commission District Two and will be funded with \$12,000,000 from the Mobile County Commission 2022 Transportation Pay-As-You-Go Program. MCR-2022-201 includes the resurfacing (RRR) of many streets located within and maintained by the City of Mobile. This project will be funded by the City of Mobile with a maximum reimbursement from the 2022 Transportation Pay-As-You-Go Program of \$3,400,000. The administration of the design and construction of this project will be performed by the City of Mobile Engineering Department. MCR-2022-202 includes the resurfacing (RRR) of segments of two streets located within and maintained by the City of Semmes. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2022-203, MCR-2022-204, MCR-2022-205, MCR-2022-206, MCR-2022-207, and MCR-2022-208 are projects that will pave (GDBP) segments of existing County maintained unpaved roads. The administration of the design and construction of these projects will be performed by the County Engineering Department. MCR-2022-209 will construct (GDBP) the remaining segment of a new entrance road to the Sportsplex located south of Halls Mill Road and east of Lees Lane within the City of Mobile. This includes the construction of a new bridge.

This project will supplement the funding within the MCR-2020-203 project. The administration of the design and construction of this project will be performed by the County Engineering Department.

MCR-2022-300 Projects These projects will be constructed within the boundaries of County Commission District Three and will be funded with \$12,000,000 from the Mobile County Commission 2022 Transportation Pay-As-You-Go Program. MCR-2022-301 includes the resurfacing (RRR) of a street located within and maintained by the City of Bayou La Batre. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2022-302 includes the resurfacing (RRR) of several streets located within and maintained by the Town of Dauphin Island. The administration of the design and construction of this project will be performed by the County Engineering Department. MCR-2022-303, MCR-2022-304, MCR-2022-305, MCR-2022-306, and MCR-2022-307 are projects that will pave (GDBP) segments of existing County maintained unpaved roads. The administration of the design and construction of these projects will be performed by the County Engineering Department. MCR-2022-308 provides partial matching funds with a maximum reimbursement of \$500,000 for resurfacing (RRR) Theodore Dawes Road and Hamilton Boulevard from 0.1 mile west of U.S. 90 to Rangeline Road. The administration of the design and construction of this project will be the responsibility of the City of Mobile Engineering Department.

TYPE OF WORK DEFINITIONS 2022

ADL:

ADDITIONAL LANES: This may include clearing, grubbing, grading, drainage improvements, basing, paving, patching, leveling, milling, resurfacing, guardrail improvements, pavement markings, shoulder work, traffic control installation, intersection improvements, signal modifications, installation of nonmotorized travelways as required by the primary funding entity, utility relocations as required by law, right-of-way and/or easement acquisitions, environmental permitting, and any other work necessary for the completion of the project.

BR:

BRIDGE: This may include clearing, grubbing, removal of bridge or bridge culvert, grading, drainage improvements, basing, paving, new bridge or bridge culvert, guardrail improvements, pavement markings, traffic control installation, installation of nonmotorized travelways as required by the primary funding entity, utility relocations as required by law, right-of-way and/or easement acquisitions, environmental permitting and any other work necessary for the completion of the project.

GDBP:

GRADE, DRAIN, BASE & PAVE: This may include clearing, grubbing, grading, drainage improvements, basing, paving, guardrail improvements, intersection improvements, pavement markings, traffic control installation, installation of nonmotorized travelways as required by the primary funding entity, utility relocations as required by law, right-of-way and/or easement acquisitions, environmental permitting, and any other work necessary for the completion of the project.

INT IMP:

INTERSECTION IMPROVEMENTS: This may include clearing, grubbing, grading, drainage improvements, basing, paving, patching, leveling, milling, resurfacing, guardrail improvements, pavement markings, lighting, traffic control installation, installation of nonmotorized travelways as required by the primary funding entity, utility relocations as required by law, right-of-way and/or easement acquisitions, environmental permitting, and any other work necessary for the completion of the project.

RECON:

RECONSTRUCTION: This may include the removal of portions of existing roadways, clearing, grubbing, grading, drainage improvements, basing, paving, patching, leveling, milling, resurfacing, full depth reclamation, guardrail improvements, pavement markings, shoulder work, traffic control installation, signal modifications, intersection improvements, installation of nonmotorized travelways as required by the primary funding entity, utility relocations as required by law, right-of-way and/or easement acquisitions, environmental permitting, and any other work necessary for the completion of the project.

RRR:

RESURFACING, RESTORATION, AND REHABILITATION: This may include clearing, patching, leveling, milling, minor widening of travel lane, minor widening of the shoulder, minor alterations to vertical and horizontal alignment, resurfacing, full depth reclamation, paving of a portion of the shoulder, pavement markings, minor drainage improvements, safety improvements, traffic control installation, utility relocations as required by law, intersection improvements, right-of-way and/or easement acquisitions, and any other work necessary for the completion of the project.

PROGRAM MAPS

The last segment of this report includes one or more maps for each project showing the limits of each road in the project and the vicinity of that project. Each map has a brief description of the type of work, including any special details, to be accomplished in that project.

Mobile County
Commission
Engineering
Certificate

CERTIFICATE

I, the undersigned <u>W. Bryan Kegley II</u>, as County Engineer for the County of Mobile of the State of Alabama, hereby certify as follows:

Since April 5, 2018, I have served the Mobile County Commission as the County Engineer. A brief summary of my professional qualifications are listed below:

- Bachelor of Science Civil Engineering, University of South Alabama, 1983
- Alabama Professional Engineer, License No. 18788
- Alabama Professional Land Surveyor, License No. 18788
- Mississippi Professional Engineer, License No. 12855

Declaration:

On the date set forth below, I delivered to the County Commission this certificate, accompanied by the Preliminary Engineering Report for the Mobile County Commission 2022 Transportation Pay-As-You-Go Program, Mobile County Engineering Department, September 2022 (collectively called "the Report").

The Report was prepared by and under my direction and supervision, and I am knowledgeable of the projects included in said Mobile County Commission 2022 Transportation Pay-As-You-Go Program and the details with respect thereto that are set forth therein.

I hereby certify that all materials proposed to be used on any road or bridge work described in the Report meet the specifications of the Alabama Department of Transportation (State Highway Department) applicable to the same type of construction or improvement, as the said specifications exist on the date thereof.

Dated this _____ day of _____ AUGUST_ 2022.

As County Engineer of the County of Mobile In the State of Alabama
