Please Review:

RE: BID 61-26 PORTABLE TOILET RENTAL AND HOLDING TANK PUMPING SERVICES AT SEVERAL LOCATIONS FOR MOBILE COUNTY PARKS AND ENVIRONMENTAL SERVICES DEPARTMENTS.

Question #1: On holding tank quantity billed: Will someone be onsite during pumping to sign off on agreed amounts pumped?

Answer: Holding tank pumping will be billed based on the actual gallons pumped. County personnel will not necessarily be onsite during each pumping to sign a service ticket but tanks will be checked by staff after service. The contractor shall provide documentation identifying the service location, date of service, and actual gallons pumped with the applicable invoice.

Question #2: How can the toilets be quoted properly without knowing the service schedule or bidding service on a separate line? There isn't a line for additional toilet services.

- a. Rental period 1-6 days - does that include service or just delivery and removal?
- b. Rental period 7-29 days - does that include service or just delivery and removal?
- c. Rental period 30 days - does that include service or just delivery and removal?
- d. Rental period 1 year- does that include service or just delivery and removal?

In the general requirements section II it states to include normal servicing during the applicable period. If these do include service, how do I determine the frequency to bid accurately? Also, if these units require weekend services that rate will be different than the week day services.

**Answer:** For portable toilet rentals, the rental price for each applicable rental period shall include delivery, removal, and normal servicing.

For bidding purposes, normal servicing shall consist of one standard service per week for rentals of seven days or longer. For rentals of 1-6 days, the rental price shall include delivery and removal; additional servicing during that period will only be performed if requested by the County and will be billed at the Additional Toilet Service unit price.

**Therefore, bidders should price the rental periods as follows:**

1-6 days: Delivery and removal included: servicing billed separately if requested.

7-29 days: Delivery, removal, and one standard service per week included.

30 days: Delivery, removal, and one standard service per week included.

1 year: Delivery, removal, and one standard service per week included.

Any servicing requested by the County beyond the standard frequency will be billed at the bidder's Additional Toilet Service unit price. Standard servicing should be assumed to occur Monday through Friday. **Weekend servicing should not be included in the base rental price unless specifically required or requested by the County.**

Normal servicing shall consist of one (1) service per week for rentals of seven (7) consecutive calendar days or longer. For rentals of 1-6 consecutive calendar days, no routine service is included. Any service requested by the County during this period shall be billed at the applicable Additional Service unit price. Any service requested in addition to the one (1) normal service per week shall be billed at the applicable Additional Service unit price.

Mobile County Commission hopes that this clarifies your questions and would like to apologize for any inconvenience this may have caused you.
